

Health & Social Care

Do you want a rewarding career working in the health and social care industry? Our course can help you gain the skills and confidence to pursue a fulfilling profession within this field.

Whether you're interested in nursing, residential care or social work, you'll get a chance to study a wide range of topics, including nutrition, psychology, communication, health education and caring for children, young people and the elderly.

We have close links with care homes and many other local care settings that allow our students to gain high quality work experience opportunities and develop your skills in real-life situations.

Learning Goals:

Communication Skills, Duty of Care, Social Care, Safeguarding, Handling Information, Career Opportunities
